

Exchange-rate trading opportunities between Unregulated and Regulated Trading Zones in Northern Victoria

This table lists the volumes currently available for exchange-rate trade from unregulated trading zones to regulated trading zones in northern Victoria.

Permanent trade of entitlement from a trading zone in the unregulated system to a compatible trading zone in the regulated system is permitted under the trading rules as an exchange-rate trade

Exchange rate trade is only permitted if there has been a prior trade of entitlement from a regulated trading zone to the unregulated trading zone

Approval of an exchange-rate trade results in the cancellation of a Licence to Take and Use Water in the unregulated system and issue of a water share in the regulated system

G-MW's approval of an application for an exchange-rate trade is subject to the *Trading Rules for Declared Water Systems*

Temporary trade between the unregulated and regulated systems is not permitted.

As at 6 July 2016

To trading zone (regulated)

Zone	1A	1B	2A	2B	3	4A	4B	4C	5A	6	6B	7	9A	9B
140						17.38ML
