

e-storage update

For all the latest on water storages in northern Victoria

Welcome to the second edition of e-storage update

This e-storage update is designed to keep you regularly updated on Land and On-Water Management Plans happening at Goulburn-Murray Water storages across northern Victoria.

You have been sent this edition from registering your interest on our website. If you'd like to unsubscribe at any time please use the 'opt-out' button below.

What are Land and On-Water Management Plans?

These Plans will guide how G-MW and other agencies manage activities, facilities and development on and around water storages. The Plans focus on cultural, environmental and water quality management issues at water storages but are not designed to make recommendations on storage operations – such as water levels and releases.

Lake Eildon

Lake Eildon

Lake Eildon has just begun its Land and On-Water Management Plan. Consultation will take place throughout August and members of the community will be invited to a range of information sessions.

G-MW has launched a new webpage to assist the community in accessing timely information about pre-releases of water from water storages this winter including Lake Eildon daily pre-release levels and the next 3 days forecast. Find out how a storage works and try our new 3D dam animation that allows you to explore different parts of the dam with a slider that demonstrates the effect of changes in water levels. Visit: www.g-mwater.com.au/winter2011

CONSULTATION

Goulburn Weir

Goulburn Weir (Lake Nagambie)

Goulburn Weir has begun its Land and On-Water Management Plan. Consultation has now commenced and will continue throughout July and August. Members of the community and stakeholders will have the opportunity to contribute and have their say.

The Regional Development Company has been engaged by G-MW to facilitate community consultation that will occur in a number of ways including meetings, interviews, an Open House and online questionnaire.

To participate in the online questionnaire, click on the link below. The questionnaire will take only 5-10 minutes to complete. Responses are confidential and will close on Friday 26 August 2011.
